

If your loved ones are unable attend, why not...

VIRTUALISE YOUR WEDDING

We understand how important your *special day* is and there's no reason it can't still be the magical experience you've always dreamed of. We can stream your big day to the people dear to you, connecting anyone, anywhere in the world. Our team have been working around the clock to make sure we're prepared for any eventuality and can keep your day completely *stress free*. We combine cutting edge AV equipment with HD cameras and bespoke streaming technology to deliver you a wedding experience like no other.

Let us help plan and deliver your *perfect* day.

One Way Basic Stream (suggestion only, can be tailored to your unique wedding)

- Small PA system
- Microphones
- Laptop for streaming video and audio
- Web presenter and video switcher
- 2 x HD video cameras (as a minimum, more cameras optional)
- 2 x technicians on-site for the duration

Estimated cost £1,500.00 +VAT

If you would like to make your broadcast more interactive (allowing remote viewers to make speeches or participate in your day) you may wish to consider additional large screens/projectors.

We understand that every wedding is *unique* and these suggestions can be amended to your bespoke requirements. Please don't hesitate to contact one of our experienced team members who will assist you in putting together all the elements, ensuring you can share your day with *everyone* you hold dear. Let us guide you through your enquiry and offer the best solution in terms of your requirements and of course that super important budget!
