

JOB VACANCY: STREAMING TECHNICIAN

As a Streaming Technician you will be at the heart of all digital event operations at Sounds Commercial. Any signal or media entering and leaving a virtual or hybrid event will pass through your hands at some point. You will be responsible for managing streaming platforms and online delegates. Your role is to provide operational cover, troubleshooting, customer services for clients on the phone and quality control for incoming and outgoing signals. You are also part of the AV Hires team and can operate a wide variety of equipment. You will be expected to ensure projects are appropriately run and that clients' expectations are exceeded.

The Role:

You will have a key role to play within the technical production team providing support for the delivery of various projects across live, virtual and hybrid experiences. You are going to be part of a close and friendly team and you will be working with a range of technology that will help to build and enhance your own technical expertise. Your role at Sounds Commercial will be to provide a professional audio-visual service to clients and trainers, ensuring that all audio and visual equipment is set up and working according to specifications given. You will need to proactively seek learning opportunities to further develop skills. You will be tasked with facilitating all digital event aspects of the current and future Sounds Commercial clients and provide excellent quality control and professionalism to deliver a first-class final product.

Understanding:

You will need to demonstrate a concise knowledge of streaming, networks, platforms and AV equipment. This will include a knowledge of video standards, interfaces, lighting, cameras, mixing desks, sound desks and vision mixing. You will need to know how data signals are achieved from both point of send and receive. This goes hand in hand with a good knowledge of RTMP based streaming services.

Skillset:

The ideal Candidate will have:

- At least 3 years experience in live events
- Extensive knowledge of Streaming
- A good knowledge of IT and networks
- A good knowledge of AV for events
- A good knowledge of OBS

JOB VACANCY: STREAMING TECHNICIAN

- A good knowledge of RTMP streaming
- Technically minded with the ability to multi task and think on your feet
- The ability to troubleshoot
- A professional, reliable, can-do attitude
- Experience in event production; live, virtual or hybrid
- Experience with various platforms such as Zoom, Teams, Webex, etc.
- The Ability to work flexible hours

Please forward your CV with a covering letter and salary expectations to:
